THEFT DETERRENCE AND RECOVERY

Using our Theft Deterrent and Theft Recovery Labels with Monarch handheld labelers allows you to label high-theft merchandise with unique brand and store information and track back to its original source.

Speciality adhesives deter product theft and resale, while variable store label information facilitates merchandise recovery if stolen.

Stolen goods are only valuable if they’re in pristine condition. Any attempt to remove your label will make merchandise undesirable for resale, as attempts will result in package breakage or unsightly black adhesive residue. If merchandise is retrieved during an investigation, labeled goods will help recoup the cost of lost goods, and may increase your chance of prosecution.
